Loopy-1-A

Type: Lego
Length: 670 meters

I would like to thank:

Marc Schroeder
marc@spaceman.de
http://www.spaceman.de/re-volt

for the texture pool - They made the track look good (to me anyway).

and:

The author of rvglue that enabled me to put a texture to the ugly blue walls.
(Alexander Kröller and Christer Sundin for RVTmods program package)

Do not alter the track - Race it as is.

Thank you,
